DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

This application is in condition for allowance except for the presence of claims 14-21 directed to non-elected without traverse filed on May 4, 2005. Accordingly, claims 14-21 have been cancelled.

Allowable Subject Matter

1. Claims 1-13 and 22 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1-13 and 22 are allowed because the prior art of record neither anticipated nor rendered obvious that a method of fabricating a reflective plate used in a liquid crystal display comprises various steps with specific features recited in claim 1:

forming a plurality of second peak patterns between a first peak patterns from a second organic insulating layer by using a second mask wherein the second peak patterns have a different height from the first peak patterns and overlap only a portion of the adjacent first peak pattern as shown in Figs.15A-15H.

Conclusion

The references US 6,407,784 and US 6,784,957 disclose the second peak patterns that are not between the first peak patterns as claimed. Rather, the peaks of the different layers are coincident with one another.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
